# Announcement

## An Invitation to the 3rd International Congress of the World Association of Apheresis

---

### COME AND JOIN THE WAA IN AMSTERDAM 1990

"Three is the charm" will bring you from Ottawa to Amsterdam to further experience the spirit and scientific challenge of the WAA.

Amsterdam, founded well over a 1000 years ago, seems to be an ideal place to exchange innovative ideas, expertise and technical know-how in the ongoing endeavour to optimize haemapheresis through presentations, discussions and thought sharing, both formal and informal. Amsterdam will provide you the opportunity and ambiance to optimize the options for specific removal of unwanted pathogenic substances, the replacement of removed constituents, the precautions for the safety and efficacy, the options for collection of specific peripheral blood cells with an emphasis on purity and potency, the options for safe and efficient technical procedures, the biocompatibility aspects in the extracorporeal circuits and the users' friendliness and automation in haemapheresis apparatus.

Amsterdam will offer you an exciting time both scientific and social. The WAA, hosted by the ESFH, is awaiting you in Amsterdam 1990!
